LAPLAND RELAXING WILD HERBAL SOAP

Lapland is a herbal soap for hands and body, for the entire family. The gentle cleansing milk bar is suitable for normal skin and for men. It has a soft foam and it’s good for shaving as well.

The herbal soap is made from completely natural ingredients. It contains nature’s own superfood nettle, apricot seed oil that is mild and rich in vitamins, coconut oil that is rich in antioxidants, and nurturing cacao butter. Nettle flavonoids, vitamins (C, B, and K1), and amino acids. The apricot seed oil is fast to absorb, and it contains vitamins A, B, and E. Coconut oil and cacao butter help to remove any impurities from the skin gently while their good fatty acids pamper your skin.

Natural essential oils give the wild herbal soap its mystic forest scent. The refreshing mix of scents comes from the fresh and coniferous cedar, the lovely smoky ginger and the mystic frankincense.

All Luonkos’ hand-made soaps are vegan. They contain no water, preservatives, or microplastic. No animal testing.

The size of the soap 100 g
